---

## PROFESSIONAL SUMMARY

Resilient, self-motivated and highly functional full-stack developer and UX engineer proficient at designing, developing and deploying web applications while being adept at working with cross-functional teams and major software development projects.

## EDUCATION

### Bachelor's Degree in Information Technology

2018-2022

CHARUSAT UNIVERSITY | Current CGPA: 9.62/10

### ICSE/ISC High School Degree (Grade 9-12)

2014-2018

SNV INTERNATIONAL SCHOOL | Passing Percentage: 95.6

## PROJECTS

### Employee Attendance Monitoring System

A masked face detection and recognition based attendance management system as a replacement of the existing biometric system in order to contain the spread of COVID-19. A full-fledged software involving a mobile app for end-users and a web app for admin hooked to a machine learning algorithm and linked via micro-services to a central database.

### DocCreate

A scalable content management system (CMS) for creating, managing, deploying and sharing structured, well-designed and easy-to-navigate reports or documentation over the web. A full-stack web application made using booming technologies like NextJS and GoLang.

### E-Certificate Generator

A GUI-based desktop application that can generate multiple e-certificates on demand using the given blank certificate template and by reading corresponding data to fill in the certificate from an Excel sheet. The project was created to meet the demand of creating e-certificates during cultural events at the university and is still in use. Project was demonstrated in a project exhibition hosted by the Computer Society of India (CSI).

## INTERNSHIP

### Skyolane Digisolution

JUN 2021 - JULY 2021

- Under 6 weeks of internship, I took part in 5 projects taking place at the company.
- Involved as a graphic designer, web designer and content writer for 4 website projects.
- Got an opportunity to work on a real-time project belonging to a client who wanted to expand their business over the internet.
- Besides designing, collaborated with the web developers, delivered a teaching session on Figma to the peers and worked closely with mobile application developers.

## ASSOCIATION

### Google Developer Student Clubs (DSC) CHARUSAT

JUL 2020 - MAY 2021

- Served a term as the Technical Advisor in the team.
- Conducted various workshops, technical events and expert talks actively contributing in management, content review and delivery of these events.
- In association with the DSC lead, collaborated with 7 other DSCs of the state, to host a State-level Hackathon that attracted over 500 participants. The sponsors of the hackathon belonged to reputed companies like GitHub, Matic (now known as Polygon) and Devfolio. We gathered a sum of Rs. 90,000 which was then used as cash prize for the winners.
